FIRST-AID FOR SHOPPERS —Do you want to be sure of getting the right product when you go shopping? Then look in these Yellow Pages before you start out.

How to borrow money for the first time

Instead of worrying, figure out the exact amount you need. (It's just as wrong to borrow too much money as borrow too little.)

Then, to save time, telephone Seaboard for any questions you may have and a personal appointment.

You may borrow UP TO $600

Every month more than 150,000 money-troubled people exchange their problems for a Seaboard loan —and you may, too.

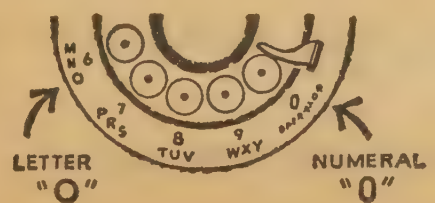
Ringing Signal



A soft "burr-r-ring" repeated at regular intervals means that the telephone you dialed is ringing. Give your party time to answer—about 10 rings—before you hang up.

The Busy Signal

A steady "buzz-buzz-buzz" sound means the line you called is in use. Hang up and call again later.

Letter "O" – Numeral "0"

Please be careful not to confuse the letter "O" with the numeral "0" when dialing.

Calling Another Party on Your Line

Dial the number or station code, as appropriate. Hang up when you hear the busy signal. Your bell will then start ringing. When it stops, pick up your receiver and talk. If your party does not answer, lift the receiver to stop the ringing.

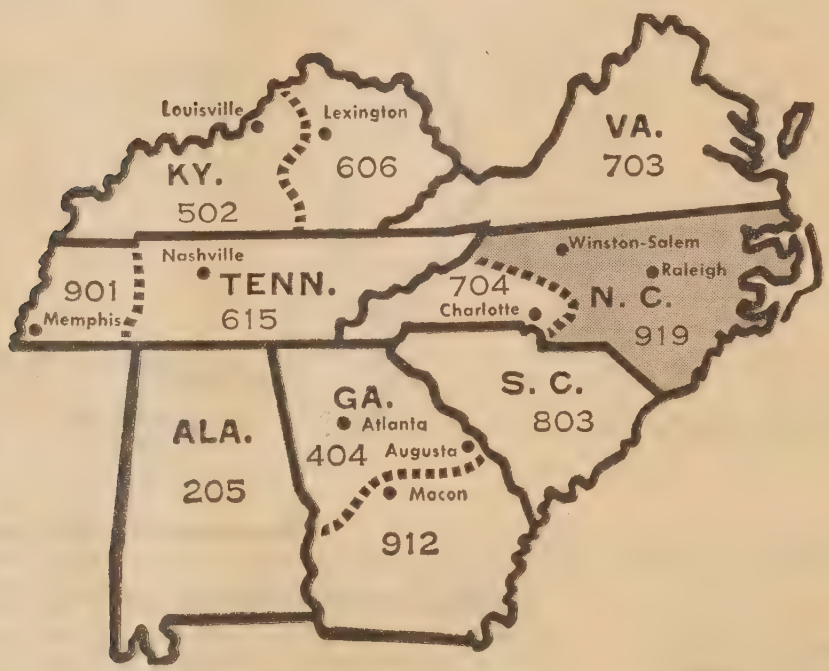
Your Operator is always ready to help you with calls you cannot dial, any difficulty you may encounter, and in EMERGENCIES. To reach her just dial "OPERATOR."



HOW TO USE DIRECT DISTANCE DIALING

The United States and Canada are divided into more than 100 telephone areas, each identified by a three-digit area code. (See map on page 3.) This system makes it possible for you to have Direct Distance Dialing. With DDD, you can dial your own station-to-station calls, when the number you are calling has either two letters and five numerals or seven numerals. For other types of calls and calls from coin telephones, dial "Operator."

If you know the area code and number . . .

1 ON CALLS INSIDE THE 919 AREA

DIAL 1 and then the TELEPHONE NUMBER. Do not dial area code 919.

Telephones in This Directory Are in the 919 Area

2 ON CALLS OUTSIDE THE 919 AREA

DIAL 1 and then the appropriate AREA CODE and the TELEPHONE NUMBER.

3 GIVE THE OPERATOR YOUR NUMBER WHEN SHE ASKS FOR IT

Before the called telephone rings, an operator will ask "Your number, please?" Be sure to GIVE HER THE NUMBER FROM WHICH YOU ARE CALLING.

4 IF YOU REACH A WRONG NUMBER

—dial "Operator" immediately and TELL HER WHAT CITY AND TELEPHONE NUMBER YOU REACHED so you will not be billed for the call.

If you don't know the area code or number . . .

1 HOW TO GET THE AREA CODE

A partial list of places you can dial direct and their area codes are shown on pages 3-7. If the place you want is not listed, dial "Operator" and ask her if it can be dialed.

2 HOW TO GET THE NUMBER

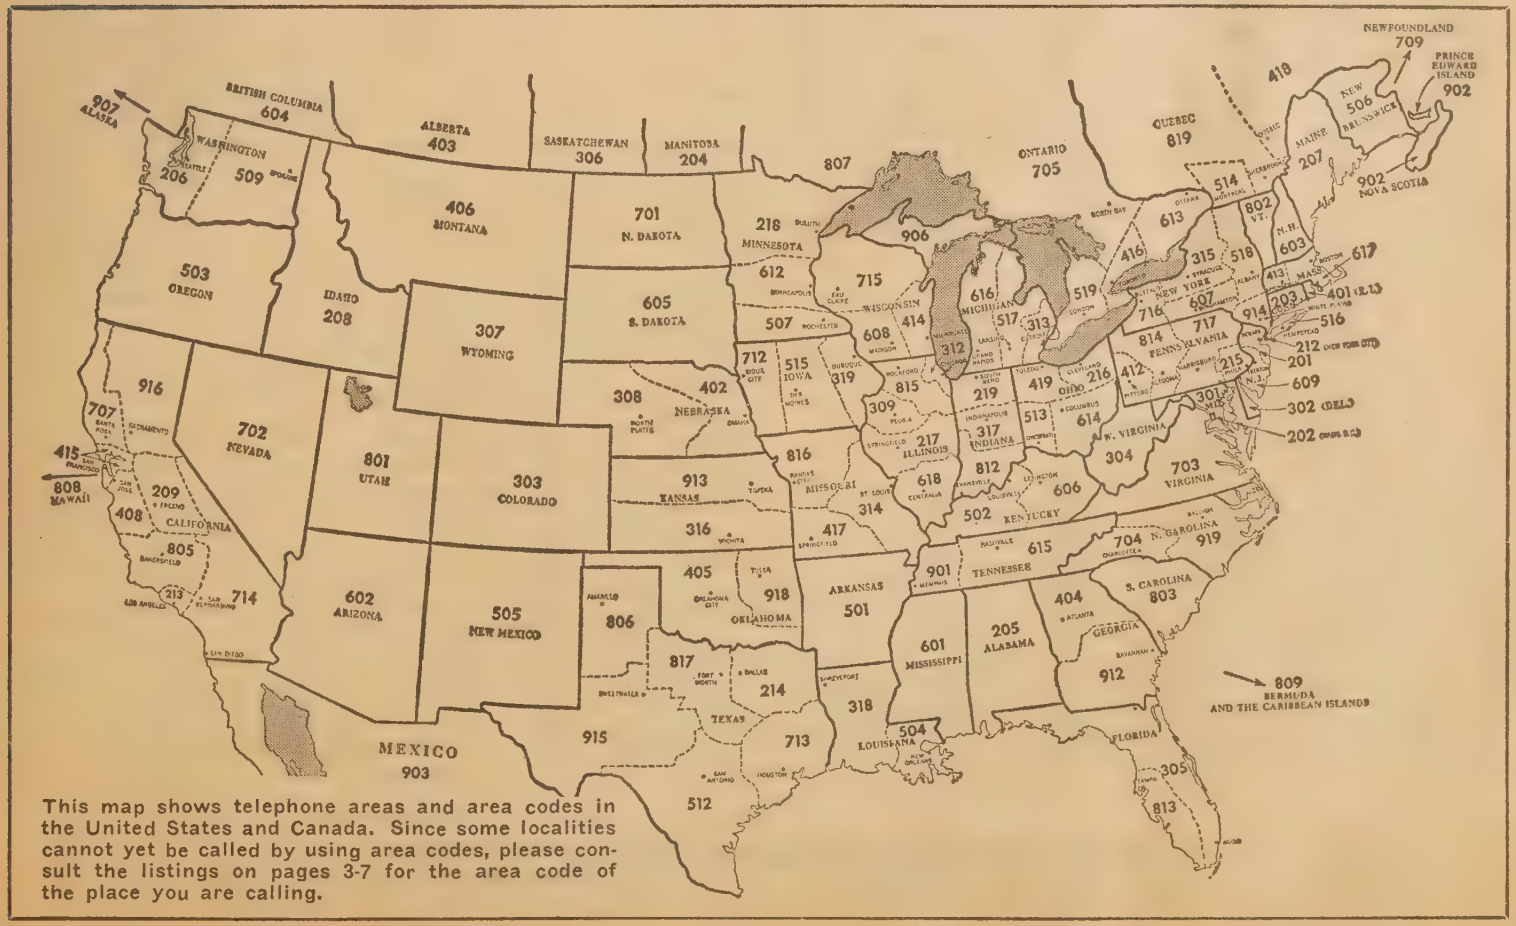
If you don't know the out-of-town number, you can dial the information Operator serving many distant places—those starred on pages 3-7—without charge. Dial 1, then the area code (if it is different from the one for the telephone you are using), then 555-1212. When the Information Operator answers, first give her the city or town, then the name and address you are calling.

If the place you are calling is not starred, dial "Operator" and ask for Information in the distant city.

3 DIAL THE CALL, FOLLOWING INSTRUCTIONS IN LEFT COLUMN

IF YOU NEED ASSISTANCE, DIAL "OPERATOR." SHE WILL BE GLAD TO HELP YOU.

AREA CODES FOR FASTER LONG DISTANCE CALLING



Even on calls you must place with the Long Distance Operator, the area code will help you get them through faster. Just give her the area code (if it is different from the one for the phone you are using) and the telephone number you want. For example, say "Area code 311, KL 5-2368." If the Operator needs to know the place name, she will ask you for it.

PERSONAL DIRECTORY

For your convenience, this attractive little loose-leaf directory provides a handy place for recording your personal list of telephone numbers, addresses, and special events. It also contains a list of area codes for over 1,800 cities. To get one free, just call, write, or visit your Telephone Company Business Office.

HELPFUL INFORMATION

YOUR TELEPHONE NUMBER IS IMPORTANT

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code, too—it helps distant parties call you faster.

When You Hear a "BEEP" Tone

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

Attachments to Telephones

The Telephone Company furnishes all equipment necessary to provide telephone service, in the interests of safety and good service, no equipment, apparatus or device not furnished by the Telephone Company may be attached to, or used or connected with, its facilities, except as provided in the Company's tariffs.

Telegrams

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph company—see the listings of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Out-of-Town Directories

Directories of other cities may be obtained at a nominal charge. Call our Business Office. _____228-9011

Telephone directories of the principal cities and towns in the United States may be consulted at 317 E. Davis St., Burlington, N. C.

Automatic Answering Set

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available. It then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

Some of these sets will also record a message from the caller.

Tariffs

Tariffs which show rates, rules and regulations for telephone service and facilities, approved by the Regulatory Commission, are available in our Business Office for public inspection.
